

**Position** : Project Manager  
**Experience** : 15+ years  
**Job Type** : Full Time, Work From Office  
**Location** : Pune, Maharashtra  
**Company Name** : PibyThree Consulting Pvt. Ltd  
**Website** : <http://pibythree.com>

**About Us:**

Piby3 is A Cloud Transformation company enabling Enterprises for Future. We are nimble, and Highly dynamic focused team with a passion to serve our clients with utmost trust and ownership. Our expertise in Technology with vast experience over the years helps client get Solutions with optimized cost and reduced risks.

**Job Summary:**

We are looking for a skilled Project Manager with a proven track record in managing data-focused projects, including ETL (Informatica), reporting (Python), and Data Engineering. The successful candidate will be responsible for overseeing multiple projects, managing resources, and ensuring timely and successful delivery.

**Key Responsibilities:**

- **Project Management:** Handle 3-5 concurrent projects across various stages of execution. Manage project scope, timelines, and deliverables.
- **Risk Management:** Proactively identify and mitigate risks to ensure minimal impact on project schedules and quality.
- **Team Conflict Management:** Resolve conflicts by fostering open communication, promoting collaboration, and maintaining a positive working environment.
- **Deadline Strategy:** Introduce strategies to meet deadlines, ensuring alignment between project timelines and team capabilities. Implement buffer resources when necessary.
- **Resource Management:** Assess when additional resources are needed and optimize team performance. Allocate resources effectively to ensure project success.

**Technical Skills:**

- **Informatica ETL:** Expertise in managing ETL processes.
- **Python for Reporting:** Knowledge of using Python for data reporting and analysis.
- **Data Engineering & Architecture:** Strong background in data architecture and engineering principles.
